

OPO Scandinavia designs, markets and sells eyewear and optical supplies to, and in partnership with, opticians. We are present in each Nordic country, and always operate close to our customers.

We are open and curious, appreciate the unexpected, and understand that everyone has their own preference for how eyewear should look and feel. That's why our portfolio includes many different trademarks.

Our main offices, workshops and showrooms are located in what used to be a printing house in one of Malmö's oldest industrial areas: Norra Sorgenfri.
